The Bible of Jacob Chandler

1793-1876

Preface:

The ancestry of Jacob Chandler is uncertain as of the publication of this Bible report in 2025. Many family researchers on commercial geneological sites list Jonathan Chandler 1768-1813 as his possible father, but lack sufficient documentation to substantiate this claim.

The Chandler Family Association is very interested in finding direct line male Chandler descendants of Jacob who will take a Y-DNA test to help identify which of the over 120 genetically distinct Chandler lines this family belongs to.

Notes:

This transcribed version of this Bible was produced in about 1982, and no known images of that Bible have surfaced since then. The Chandler Family Association is also very interested in obtaining digital images of the original Family Record pages to save for posterity.
